FCoE Case Studies TechBook update

An updated version of the [FCoE Case Studies TechBook](#) (v3.0) has been posted to powerlink and emc.com

New in this version is a chapter titled “Brocade VDX Switches Setup Examples” that was written by Aditya Nadkarni. It provides an overview of the VDX switch/VCS Fabric, a description of supported topologies and then provides step-by-step instructions for configuring VCS to support FCoE.

We've also addressed several editorial (non-technical) issues in this version.

Thanks for reading!
